

KHIARDS
JEWELLERY CO. ESTD 1922

FORWARD

We are at the beginnings of a new age in Sri Lanka, the advent of peace has ushered in a new sense of hope and drive to push all things 'Sri Lankan' forward. Since its inception in 1922 at the Galle Dutch Fort by Mohammed Khiard and Mohammed Siddeek, The Khiards Jewellery Company has witnessed the transition from British colony through independence, a civil war and finally peace. In these years the business has gone from selling aboard merchant ships at the Trincomalee harbor to a truly global business - with partner jewelers across the globe in addition to our many branches locally.

Sri Lanka produces some of the best sapphires in the world, bejeweling royalty and inspiring legend. Our mines continue to produce the deepest hues of 'cornflour blue' sapphires and it's our mission at Khiards to provide our clients with the very best in cut and quality. We also work with the finest handcraftsmen in the country to produce some of our most intricately designed pieces of jewellery enjoyed by generations of our clients.

Through the pages in this booklet you will be introduced to a glimpse of our work. As testament to our brand, Khiards continues to innovate and forge ahead with new concepts and design. I hope you enjoy what Khiards have to offer as much as we enjoy creating the fine pieces that you see here.

KHIARDS JEWELLERY

Khiards is the quintessential jeweller, giving substance to style, bringing together the gemstone's dualities of science and poetry, melding its rich history and long traditions with contemporary creativity and cutting edge craftsmanship.

Our dedication and attention to meticulous detail have helped us continue to perfect the intricate skills of gem and jewellery craft - evident in the many decades that we have created masterpieces in design.

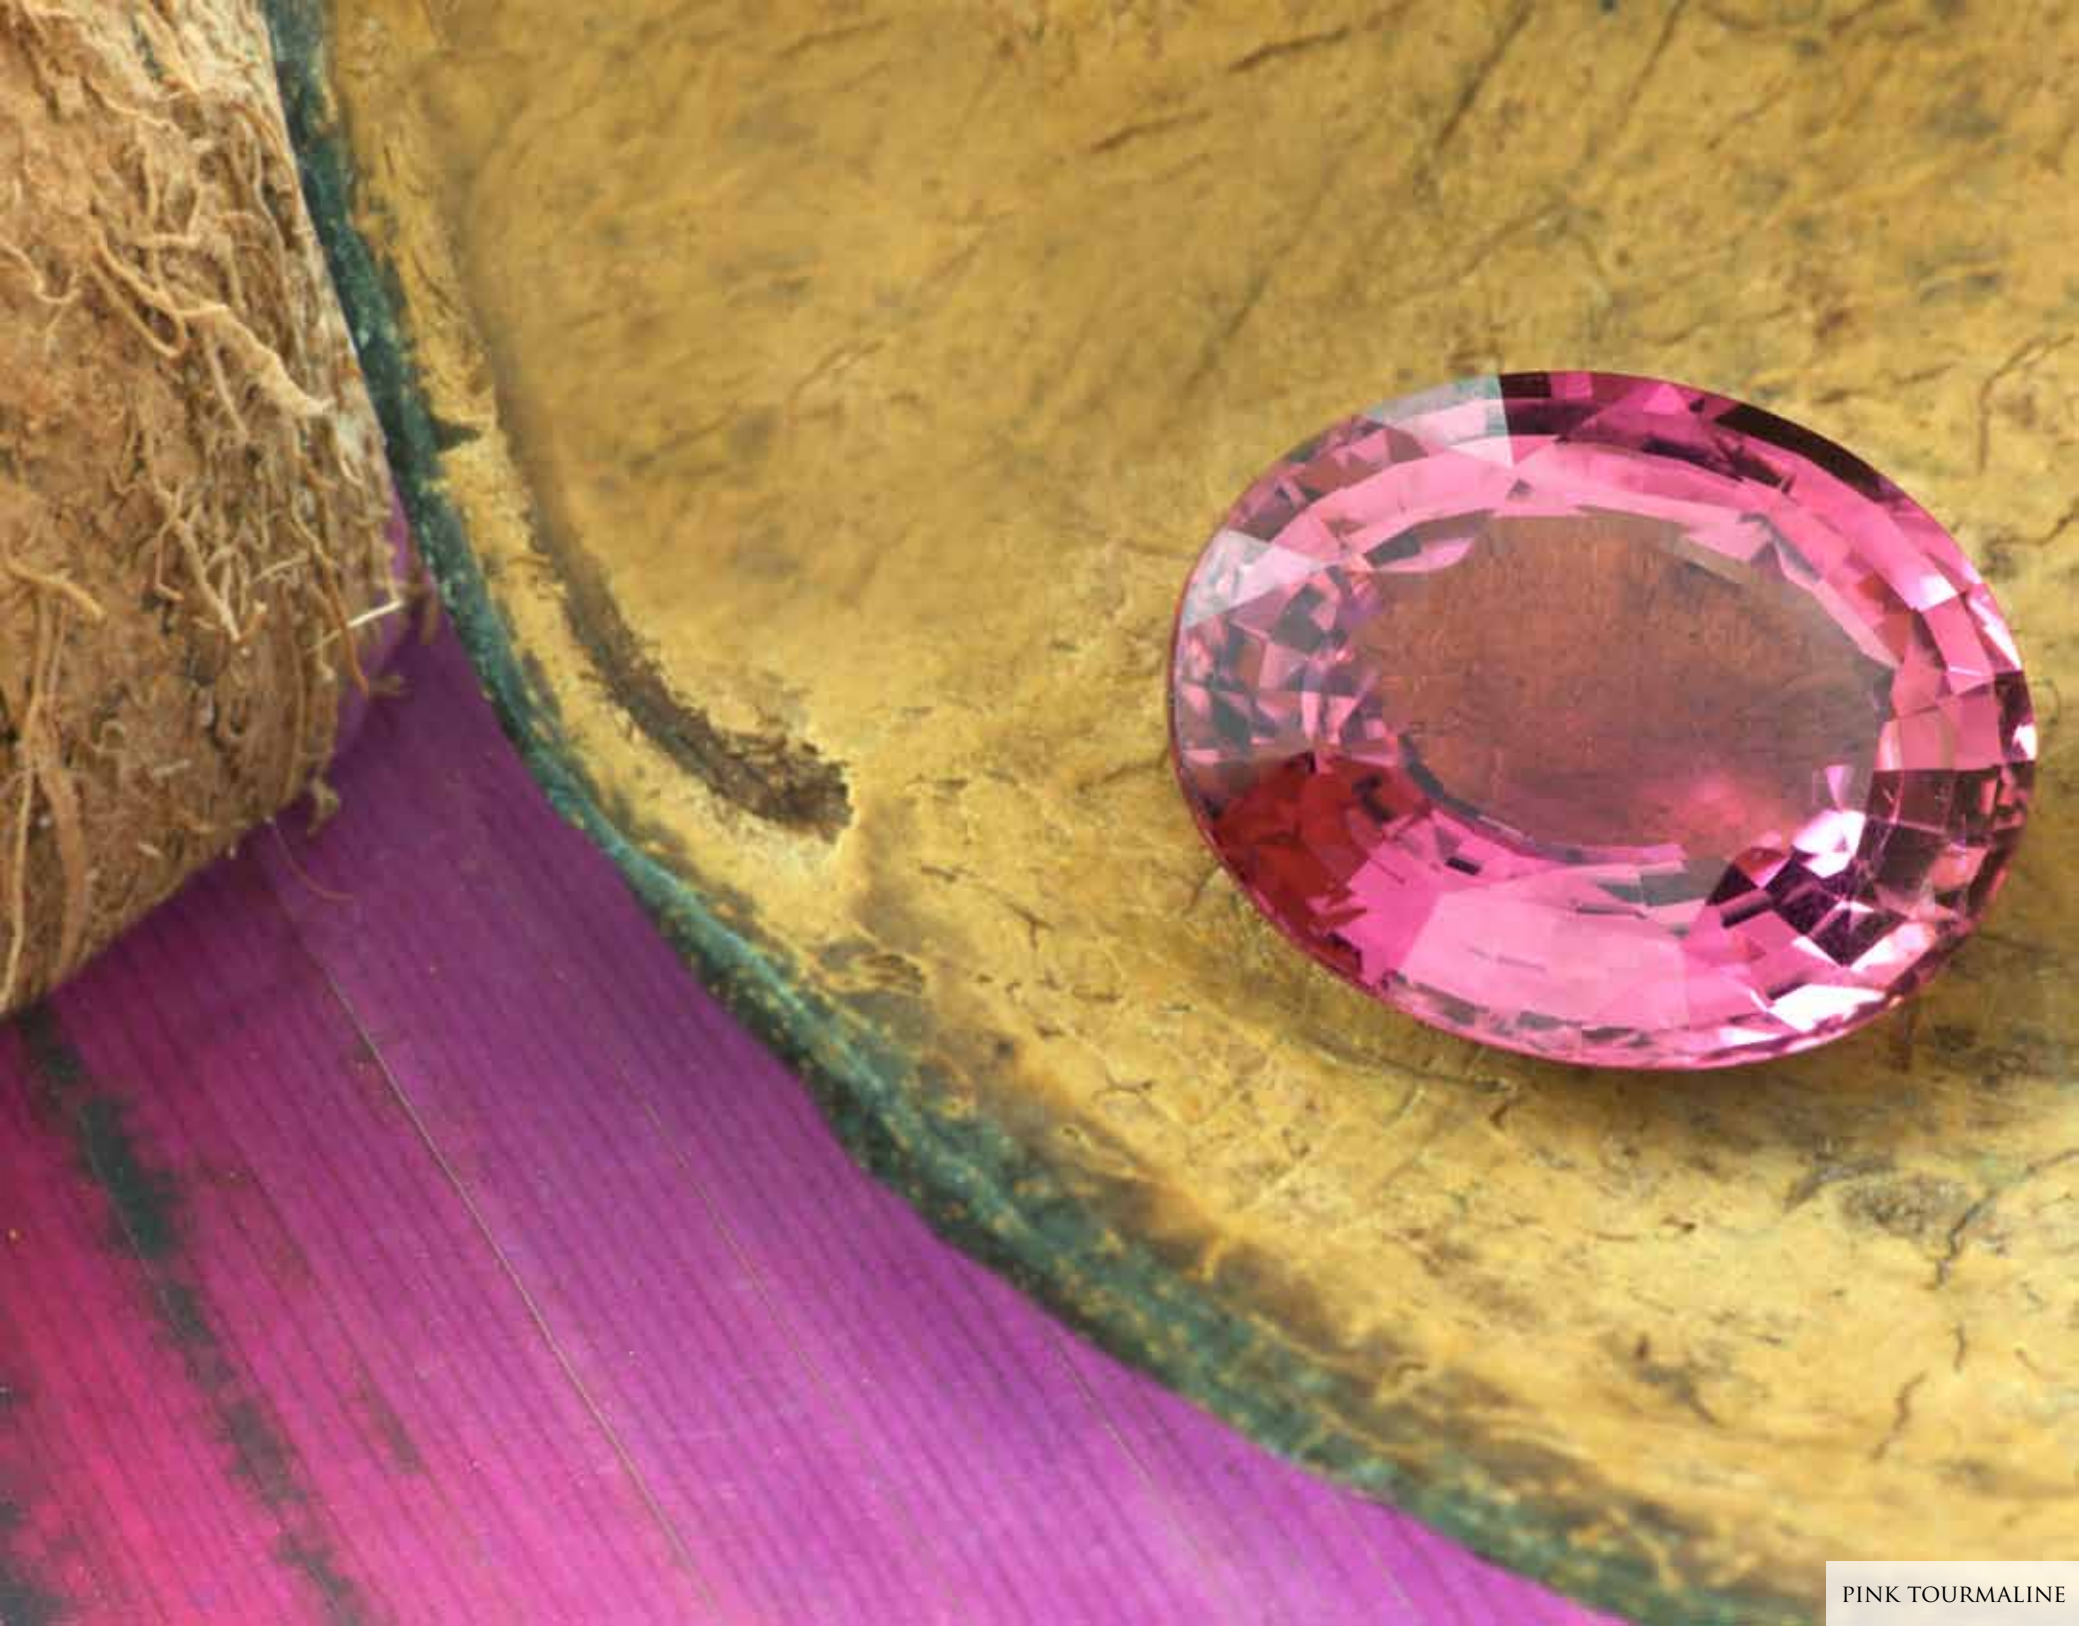

ABOUT KHIARDS

Since its inception in 1922, Khiards has continued to push the envelope in craftsmanship and jewellery design. With enduring dedication, our highly skilled and experienced designers and craftsmen collaborate to create infinitely beautiful jewels of unsurpassed style.

Khiards is a premier exclusive jewellery retailer in Sri Lanka and is known for its expertise, fine craftsmanship, fine gems and innovative gemstone settings.

Khiards is headquartered in the heart of Colombo, currently operating 5 retail stores in Sri Lanka and have many points of international distribution for its exclusive line of gems and jewellery. At Khiards we are always looking to expand our jewellery retail network, both in Sri Lanka and internationally.

JEWELLERY MANUFACTURE

With over 8 decades of experience behind us, Khiards is one of the most sought after design houses for gems and jewellery. Our experience in craftsmanship has only made our innovative creations stand out as some of the most unique.

Khiards jewellery begins with a study of the individual gemstones to inspire a unique and timeless design.

Our style is a collaboration of imagination, creativity and skills - gemmologist, designer and master craftsmen - working as one to create stunning pieces of the most exquisite jewels. Each stone is meticulously set by hand at our workshops to achieve the perfect dimension, proportion, and angles of reflection.

Our collections include an extensive line of diamond as well as coloured gemstone jewellery which include earrings, pendants, bracelets and necklaces in White or Yellow Gold and Platinum.

WHERE THE MAGIC HAPPENS

We at Khiards have always had a very personal relationship with our clients, as such they are always welcome to visit our designers and goldsmiths personally to develop the most individual works of art in precious metal and stone or even convert an existing piece.

This process will include various sketches and design models and then each piece of jewellery can be custom crafted in our workshops especially for you. Our master craftsmen create exquisite unique pieces of precious design at our workshops/factories in Sri Lanka.

With many service partners around the globe, repairs and modifications can be done on jewellery long after they are bought.

PRECIOUS & SEMI-PRECIOUS STONES

Our collection of stones come in an impressive mélange of colours, cuts and sizes. This has in turn made us one of the leading suppliers of quality gemstones, offering an extensive range of precious and semi-precious stones for wholesale and retail sale.

SAPPHIRES

Sapphires are the most popular coloured gems in the world. Best known for their brilliant blue tones and come in a spectrum of hues. Although natural untreated sapphires are still very rare, Sri Lanka is renowned globally as a source for unique 'corn flower' natural blue sapphires. Khiards excel at developing and manufacturing jewellery together with the most brilliant sapphires.

BLUE SAPPHIRE

GEM DEVELOPMENT

Khiards is one of Sri Lanka's preferred coloured gemstones suppliers, and uses its established market relationships to secure the high-quality polished stones catering to its niche cliental - this gives Khiards a vital competitive advantage in the upper end of the retail jewelry industry. As both a seller and a purchaser of polished stones, we at Khiards are constantly aware of real-time prices in the gem and jewellery market and offer the best prices for our very own mined stones.

The gem cutting process is an art that only few have truly mastered. At Khiards we follow specific quality standards and choose only the finest stones for the cutting process.

INTERNATIONAL PARTICIPATION

Tucson Gem and Jewellery Show

GLOBAL REACH

Our clients come from all over the world, and it is for this reason that it is an intrinsic part of our business that we take time to build personal relationships with every one of them, in order to deliver the ideal product you are looking for.

We make sure to personally arrange overseas customer visits, buyer meetings locally and internationally and also to gain further knowledge by participating in trade shows and exhibitions across the globe.

SERVICES

Time is always of the essence and we understand how much it means to the customer. Which is why Khiards not only offer the finest, but we also make certain your experience with us is a truly memorable one. Our jewellery production and value added services are easily customizable to your individual needs and requirements. Khiards is involved in all stages from the sourcing of the rough to the cutting and polishing of the gemstone, the initial vision and design of the piece through to the final exquisite piece. Years of training and skill enable our master jewellers to create the extraordinarily fine settings that are such an integral part of the Khiard experience.

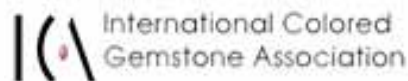

MEMBERSHIPS

As one of the leading Jewellery houses in Sri Lanka, Khiards has been in the business of gems and jewellery for over 8 decades. A lifetime of experience that has aided us in delivering nothing short of the best to our clients and fuelled our passion to keep pushing the boundaries of gem and jewellery development.

It is with pride that we showcase our industrial affiliations and memberships. We currently represent the following parent bodies in Sri Lanka and worldwide.

The International Colored Gemstone Association (ICA) is a worldwide body with gemstone dealers, cutters, and miners from over 47 countries who are devoted to advancing and promoting the knowledge and appreciation of coloured gemstones.

The Sri Lanka Gem & Jewellery Association (SLGJA) is recognised as the Apex Trade Association representing the local gem and jewellery industry and stands as the oldest trade organisation representing the gem and jewellery industry of Sri Lanka.
